SINCE 1985
Nines d'Onil
Collection 2019

Este sello de calidad nace de la unión de cinco fabricantes de muñecas que conservan el espíritu tradicional con una fabricación de la más alta calidad. La distinción ORIGIN refleja la tradición, autenticidad y exclusividad de las muñecas hechas en Onil, cuna de esta industria en España desde el Siglo XIX.
Los valores que enmarcan esta distinción son la seña de identidad de nuestra empresa desde sus comienzos, considerándonos parte de una herencia que ha englobado a varias generaciones y trabajamos para compartir y mostrar al resto del mundo.

This seal of quality is born of the union of five doll manufacturers that preserve the traditional spirit with a manufacturing of the highest quality. The ORIGIN distinction reflects the tradition, authenticity and exclusivity of the dolls made in Onil, cradle of this industry in Spain since the 19th century.
The values that frame this distinction are the hallmark of our company since its inception, considering us part of a heritage that has encompassed several generations and we work to share and show to the rest of the world.

Gracias por acompañarnos en este viaje del que aún nos queda mucho camino por recorrer.
Lo que comenzó como una aventura ya es nuestro camino.
Un camino cuya clave es la alegría, porque en lo invisible está el éxito.
El mejor regalo que podemos dar es una vida llena de imaginación, ilusión y felicidad.

Thank you for joining us on this trip that we still have a long way to go.
What started as an adventure is already our way.
A way whose key is joy, because in the invisible is success
The best gift we can give is a life full of imagination, illusion and happiness.

El algodón orgánico proviene de la agricultura biológica.
Está cultivado sin pesticidas, recogido a mano y transformado sin tratamiento químico.
La ausencia de residuos tóxicos influye en que este tejido sea más suave y beneficioso para la piel.

Organic cotton comes from biological farming.
It is grown without pesticides, handpicked and processed without chemical treatment.
The absence of toxic waste makes the organic textiles softer and beneficial for the skin.
